

Legal aid and free legal advice

Legal aid is a scheme which helps with the cost of legal advice and representation in court.

Legal aid can help with your housing situation. It can also cover legal paperwork and representation in court.

Legal advice is available by telephone, email or face-to-face.

Whether you get help depends on your financial situation and the type of case. You may have to pay something towards your legal costs.

Legal aid advice is provided by Shelter, Citizen's Advice, Law Centres and Legal Aid solicitors:
