## WHAT NEXT? NEW DEAL FOR YOUNG PEOPLE

- The Young Londoners Fund was funded by the allocation of one-off resources from reserves – made possible by higher-than-expected business rate and council tax returns. Delivery of the programme is planned to end in December 2022.
- Support for young people continues to be a priority for the Mayor – as set out in his New Deal for Young People Mission. This makes an ambitious commitment that by 2024 every young person in need will have access to a mentor and can access quality youth activities.
- A significant proportion of the New Deal for Young People budget over the next 2-years will contribute to a new collaborative young people's fund. It will include funding for mentoring, social action and sector support.
- Information about these opportunities will be shared widely, including with YLF grantees and via YLF Community our online forum for youth organisations.
- The YLF Team is offering support to YLF organisations soon ending – extensions, training, coaching, and a celebration showcase event.

## CRISP Project

Child Resilience and Inclusion Social  
Pathway

### What Is CRISP?

- CRISP is a social pathway - vulnerable young people age 10+ living in Bexley
- Model - 12 week programme targeting vulnerable or those active in criminal activity.
- Since starting, our case load has supported young people:
  - Struggling with emotional health issues
  - Struggling engaging in school or out of school involved in gangs
  - Young carers
  - On the ASD and ADHD spectrums

# The Journey

- New to post and borough
- First home visits February to start Group in March 2020
- Lockdowns
- Virtual working
  - Families not ready for virtual work
  - More at risk not wanting to engage virtual group
- Summer holidays into lockdown 2
- Group working today

# Solutions...

- How to support our caseloads achieve their outcomes
- virtual 1-2-1 work for those that were at a high risk of criminal activity
  - Virtual group
  - More flexible support periods
  - Impact on numbers
  - Quality over quantity
  - School Work

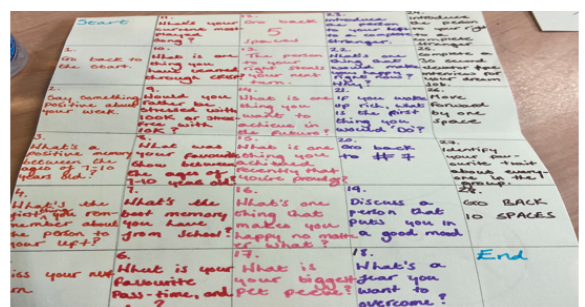

# 1:1 Case Studies from that period

- Young male
  - Struggling in and out of schools
  - Placed at the PRU
  - Relationship prior to lockdown moved to virtual. Through working with him and the PRU managed to actively engage in remote learning once schools had shut down.
  - Also supported him in understanding need for positive engagement in the community
  - Supported return into mainstream
- Young female
  - Struggling with self-esteem
  - Emotional health deteriorated during lockdown
  - Support 1:1 walk and talks, virtual 1:1)
