

Virgin Media O2

Working to end digital exclusion

Helping with digital access, and, building digital skills and confidence for everyday life

Our Social Tariffs

What's available?

With our social tariff, it's not about offering people the bare minimum, its about trying to give them the right level of connectivity for what they want to do, at the best possible price point.

- £0 a month on a 30-day rolling contract

What is Connect More?

Connect More is the Virgin Media O2 digital inclusion volunteering scheme, designed to help give digital skills and confidence to those who need it most

We know our customers expect more. As part of this, they expect ESG (environmental, social, governance) to play a big role in what we do as a business and share more with the world around us.

Using our nationwide footprint and five volunteering days each, Virgin Media O2 volunteers will share their time to help equip people with the skills, confidence, motivation and trust to use everyday technology and get online to make the most of the internet.

It's about sharing our digital skills to connect and empower people.

Can we help your residents?

We are looking for **opportunities for our people** to use their volunteering days to support **digital skills initiatives**
